

# Shuttle, the wire free door stop

**Dual** Listening Technology

**Longer** Battery Life

**Easy** to Install

**Slim** Design

**SHUTTLE** Made by  **SONICCO**

## Introducing Shuttle

Shuttle, the wire free intelligent door stop. Holds open fire doors legally. When the fire alarm sounds, Shuttle will close the fire door.

- ✓ Dual Listening technology.
  - ✓ Listens and learns specific sounds.
  - ✓ Recognises the sound of the fire alarm in 20 seconds.
- ✓ Default auto listening. No setup required.
- ✓ Easy to install.
- ✓ Anti-vacuum technology: Only closes upon the fire alarm sound.
- ✓ Dynamic slim design, designed to be discreet on the fire door.
- ✓ Long battery life with an easy to use battery compartment.
- ✓ Control Shuttle from the LCD screen. Easy night release function, time management system, fault reader and weekly test.
- ✓ USB: Software upgrades with special features available.
- ✓ Fully compliant with BSEN1155 and accepted by UK fire brigades.
